

What is the man doing?

What are you going to study in Geography?

What do you think you are going to study in Geography?

What do you think you are going to study in Geography?

In geography we are always asking questions and trying to find things out about our world.

There has never been a more important time to study subject
Can you think why?

Which
photo is
the odd
ones out?

There are three types of geography.

Physical Geography is about the natural features of the earth.

Human Geography is about people and places.

Environmental Geography is about our surroundings and often how humans affect the physical Geography

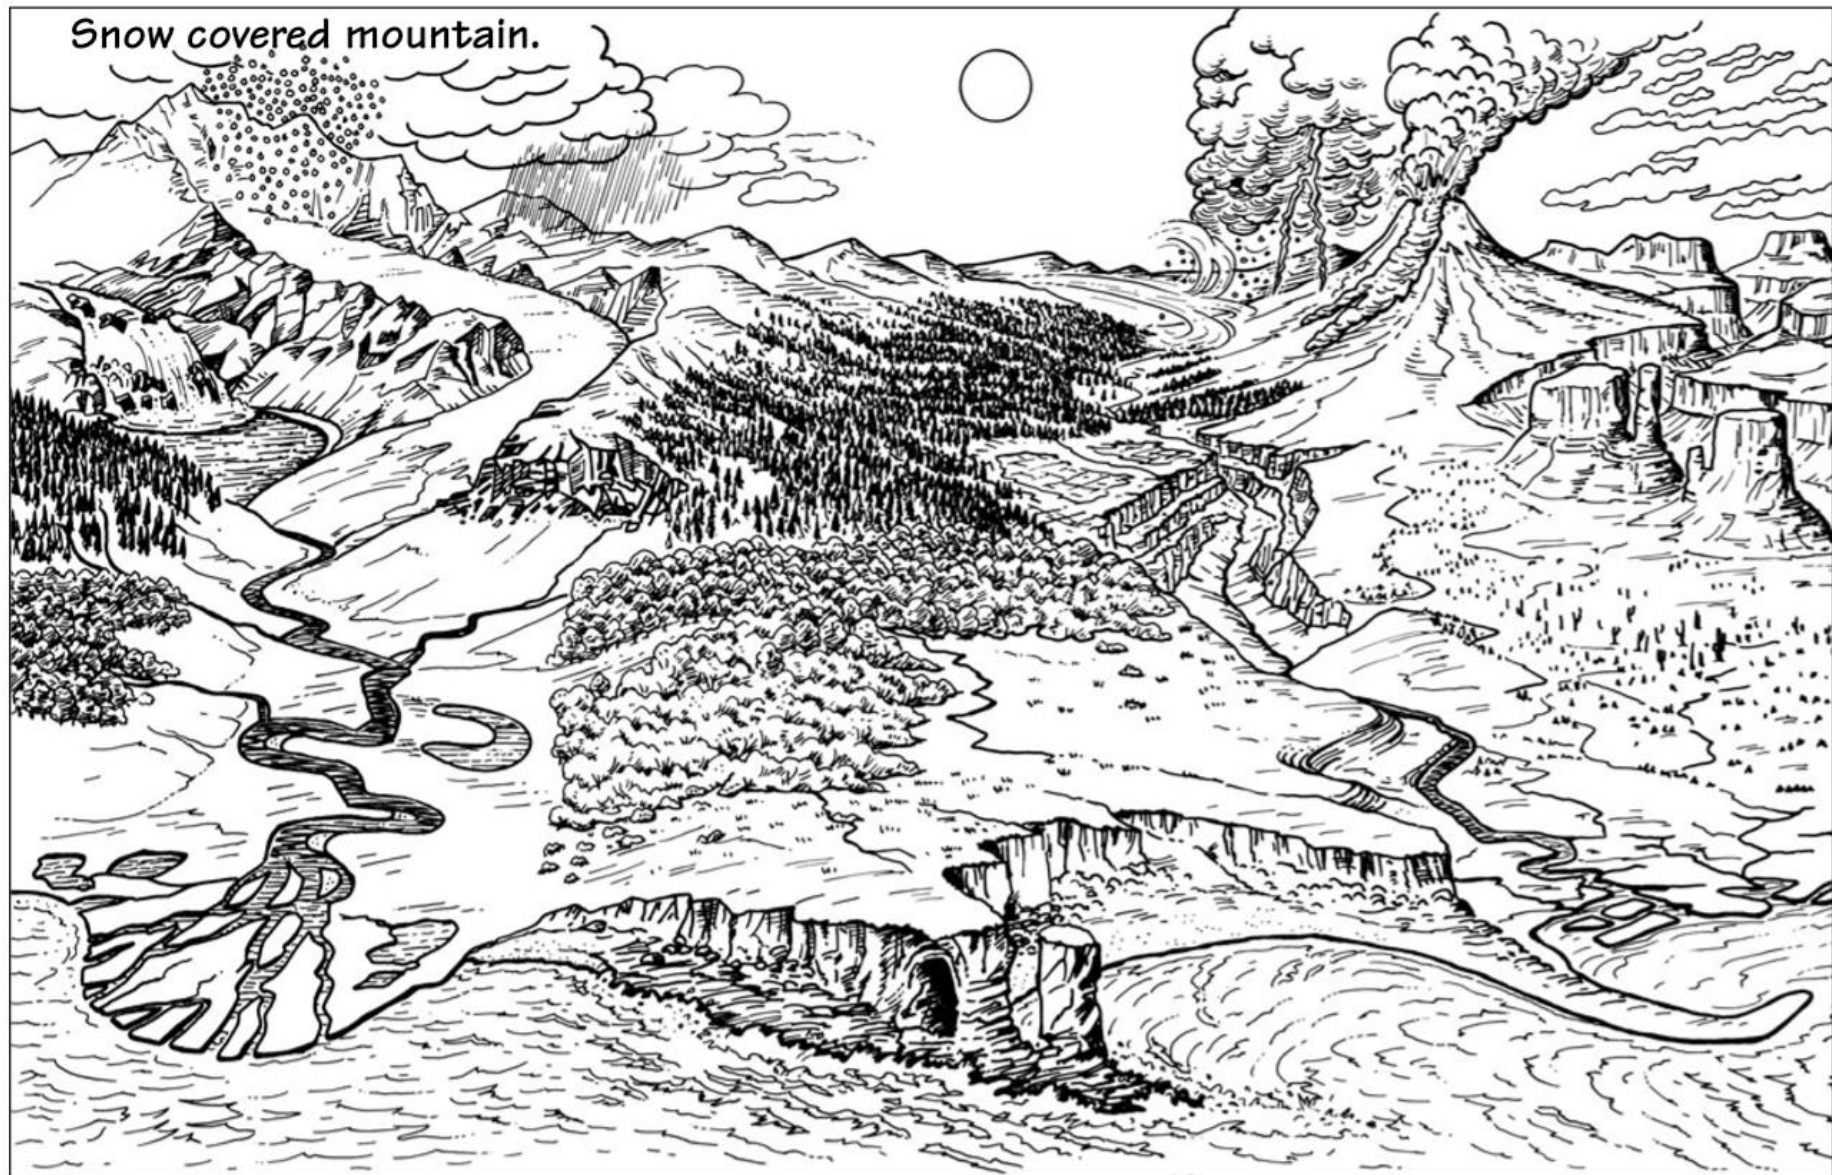

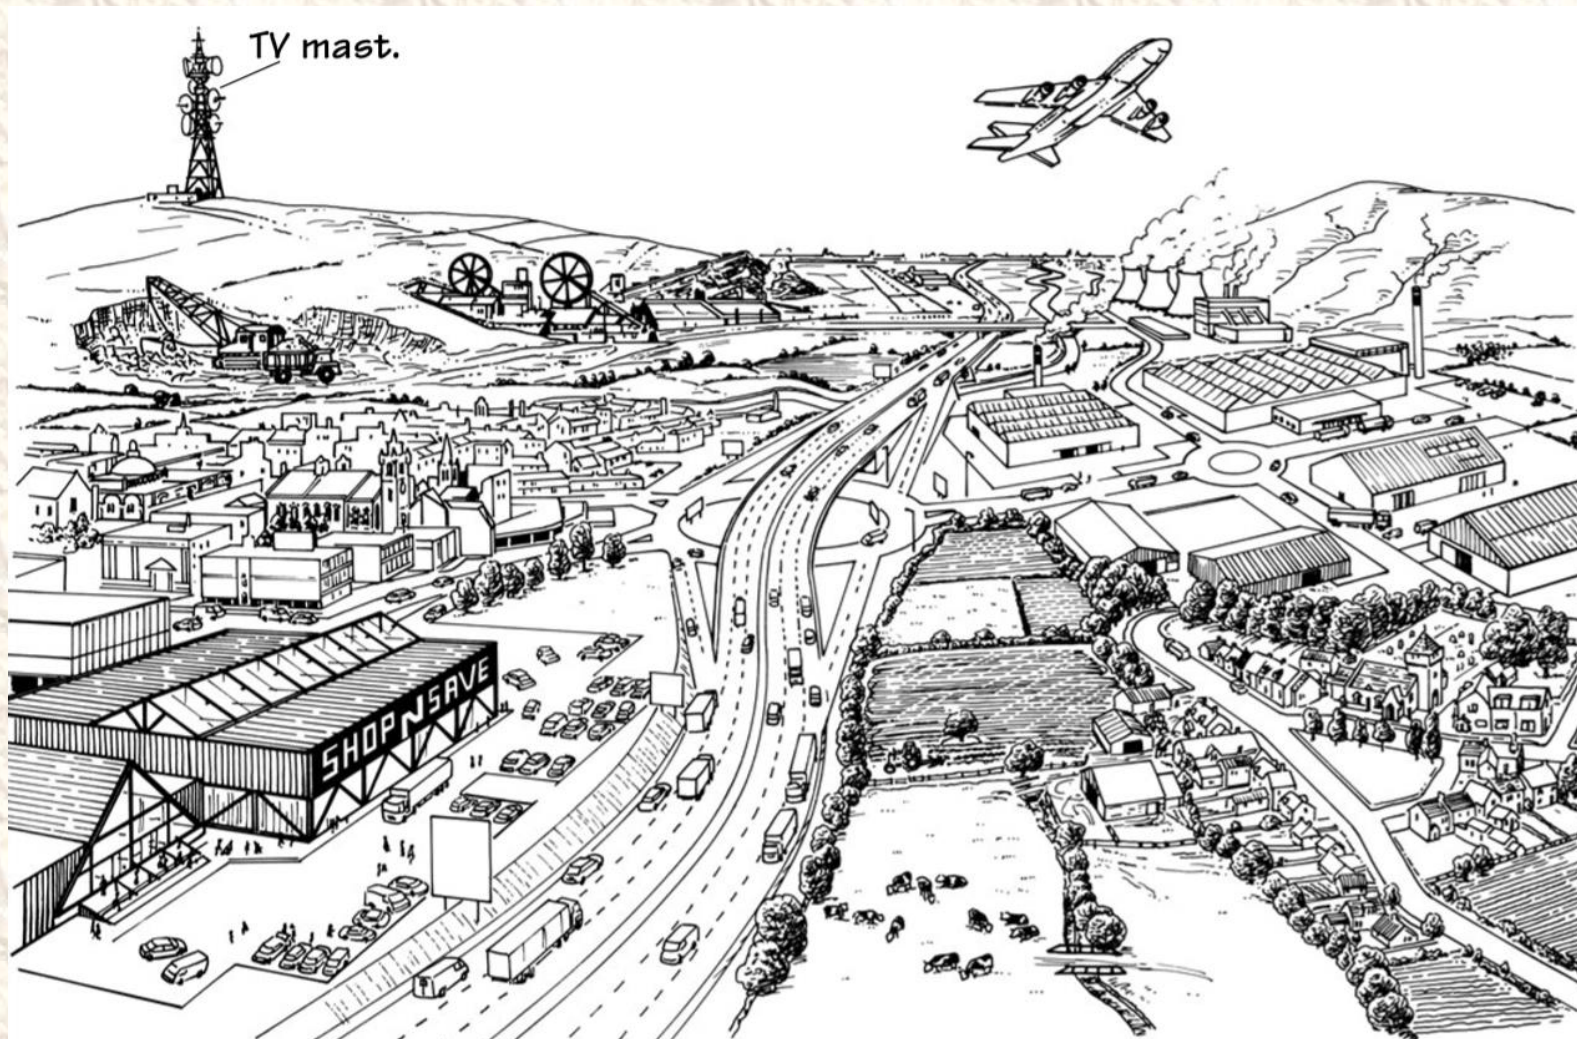

Can you sort
the rest of
these into
Human
Physical and
Environmental

Label as many Physical GEOGRAPHY features?

Label as many Human Geography features

Label as many places where the environment may be damaged.

There is only one planet.

**Planet Earth
For Sale**

Imagine the earth was for sale.
Design an advert to sell the
planet in the Galaxy News
Think of all the positive things to
encourage people to buy.
